3-Ply Laminated Mats

## 3 - PLY Laminated Mats

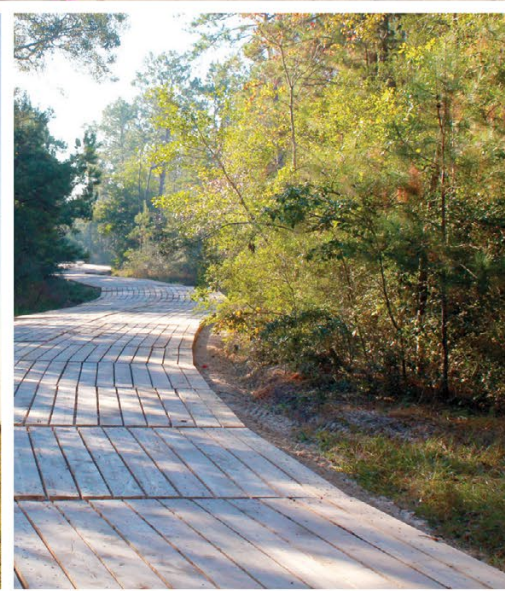

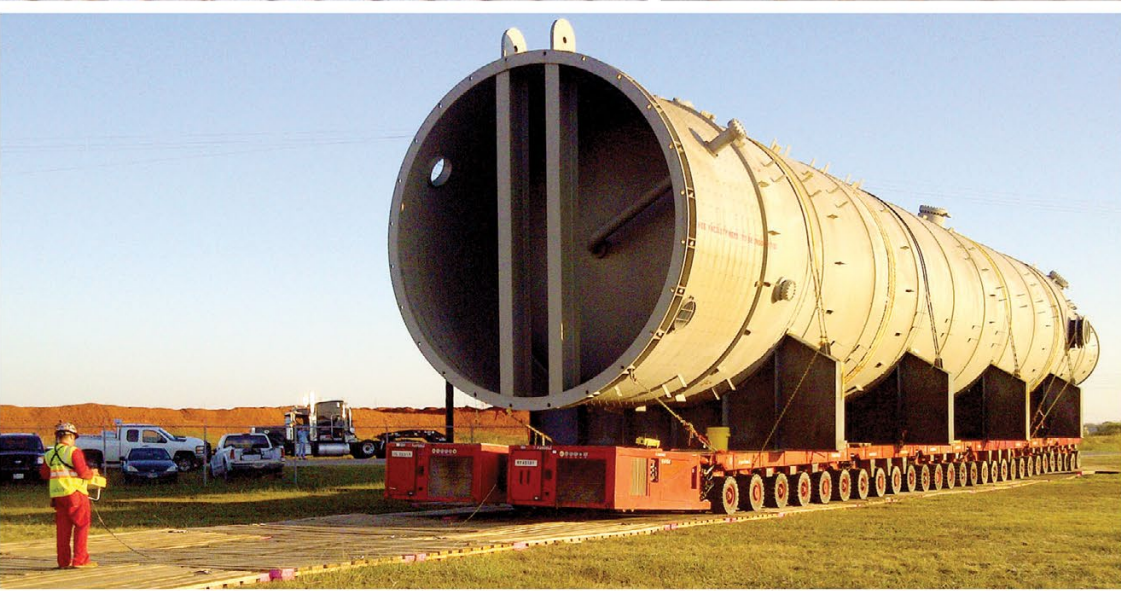

Our very popular 3 ply laminated mat is available in 12', 14' and 16 foot lengths. These mats are strong, durable, and constructed with the same high-grade materials as our traditional mats. Favored by customers all over the world, these lightweight and highly maneuverable mats are the design that concrete and general construction contractors most frequently request. There are scores of uses for our 3 ply laminated mat including temporary roads, site protection, and stable platforms from which to lift loads and operate equipment.
