

# QUALITY MAT COMPANY

Quality Manufacturing Since 1974

## Rig Mats

# RIG Mats

## Quality Manufacturing Since 1974

### FEATURES:

The average life of a Rig Mat is 10 years, but if constructed soundly, it can stay active for 15 to 20 years. Our 8' x 20' and 8' x 40' Rig Mats consist of eight independent wood sections made up of rough cut 2" x 6" treated pine nailed together for superior rigidity. Our Rig Mats are made with 6 x 15# beam cross members unlike other mats that are made with flat bar cross members.

### MAT OPTIONS:

- 6" x 6" horizontally placed treated wood cross members
- Oak cross members
- Size up to 12' wide and 60' long
- Additional reinforced lifting slots
- Boxed sides
- Additional surface treatment
- End cap ramps
- Additional longitudinal beams

### OUR RIG MATS ARE ALSO UTILIZED AS:

- Drilling rig sites
- Camp sites
- Large construction sites
- Floors for field machine shops and warehouses
- Pipeline applications
- Tank and camp foundations
- Camp mats
- Environmentally sensitive applications

### TRANSPORTATION & LOGISTICS: WE SHIP TO ALL ENDS OF THE EARTH.

We use the most productive and economical means available to get our mats to your project. Whether we transport by truck, rail, ship, or barge, be assured that our mats will arrive on time and in perfect condition to your work site. We deal in large volumes so that we can serve any customer, no matter how big or small or how far the project is.

### ORDERING & LOGISTICS:

- No job is too big or too small.
- The staff at Quality Mat is dedicated to serving you throughout the entire cycle of your project
- We will help make your ordering and delivery process efficient and seamless, assisting with any technical or logistical challenges you might have.
- We take pride in saving our customers time and money with our very adequate loading and unloading practices.
